| <p>New mixes for '08! Each year many people ask me the question, "What would you plant?" Tough question because the answer can change with different soils, aspect, and what the landowner (or farm program) wants to accomplish. This is what I would plant, doesn't make any other mix bad. I just happen to like a lot of legumes in a mix, many early succession prairie forb species (to take up space instead of weeds), and I like compass plant, coneflowers, spiderwort, butterfly milkweed an maximillian sunflower. No secret ingredient, just good stuff. Pick tall or short grass and the forbs stay the same – about 20 grass seeds per square foot and 20 forb seed sq./foot. Ex: You would like 10 acres of shortgrass and 15 acres of tall grass mix. Make 2 copies and check shortgrass on one copy and write in "10 acres" next to forb mix, total is \$2300. Check Tall grass and write in 15 ac on copy 2, total = \$3,450</p> | | | |
| | Description | Unit Price | Total Price |
| Check tall or short grass | MATT'S MIX, Short grass mix: This is Iowa ecotype, 2lb Little bluestem, 1.5lb Side oats gramma, .05lb Prairie dropseed, .15lb Big bluestem, .15lb Indian grass, .4lb Canada wildrye, .4lb Virginia wildrye, .07lb Rough dropseed | Shortgrass plus forb mix equals \$230/a | |
| | MATT'S MIX, Tall grass mix: This is Iowa ecotype, 1.5lb Big bluestem, 1lb Indian grass, .4lb Virginia wildrye, .4lb Canada wildrye, .3lb Switchgrass, .2lb Prairie dropseed, | Tallgrass plus forb mix equals \$230/a | |

| | New Deer Mix for 2007 – Dense bedding mix The hot deal in deer country these days is "dense bedding mix". Straight stands of switchgrass is <u>not</u> the answer. Try adding some diversity and you will get great deer habitat that creates security and great habitat. Just add food plots and watch out for big bucks. | | |
| Total acres | Dense bedding mix, great for adding secure dense habitat around southern Iowa woodlots and woody ravines, double your quality deer habitat. Grass: 2.5lb Big bluestem, 2lb Indiangrass, .75lb Canada wildrye, 1lb Switchgrass, .05 Rough dropseed, .02 Sand dropseed. Forb: Greyhead coneflower 1.5oz, Wild bergamont 1oz, Partridge pea 4oz, Seedbox .03oz, Rigid goldenrod .5oz, Purple prairie clover 1.5oz, Illinois bundleflower 4oz, White prairie clover 1.5oz, Black eyed susan .5oz, Culvers root .05oz. | \$101.00 per acre | |
| Freight, Shipping and Handling is \$12.00 per bag | | Subtotal | |
| $\$12.00 \times \frac{\text{number of bags}}{\text{Total freight}} = \text{Total freight}$ | | Freight | |
| <p>Each bag of mix will hold 5 acres to bag. Premium & ecotype mix & WRP is \$12 per bag. 5 total acres per bag. (you order 2 acres/\$12 shipping, order 6 acres, \$24 shipping)</p> | | Balance Due | |
